

Algebra

Algebra enables pupils to hone their maths skills with endless practice. The software offers guidance with on-screen help. The program then enables pupils to work step-by-step towards the correct answer. This is far and away the best program available for developing algebra skills.

The sixteen sections of Algebra cover the entire curriculum.

Key Skills

Removing Brackets

Substitution

Mensuration

Linear Functions

One Stage Equations

Two Stage Equations

Equations with x on one side

Equations with x on both sides

Simultaneous Equations

Quadratic Functions

Factorisation

Solutions by Factorisation

The Quadratic Formula

Completing the Square

Inequalities

Linear Inequalities

Quadratic Inequalities

Function Transformations
