

# TRILEMMA

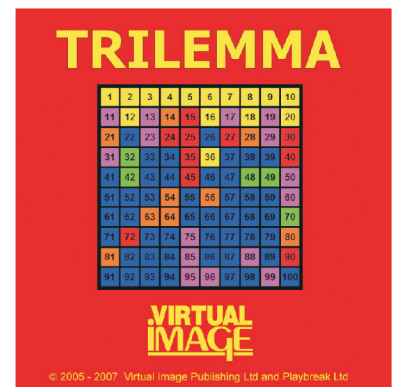

The software version of the best-selling arithmetic board game **Trilemma** is now available from **Virtual Image**.

**Trilemma** can be played by up to 4 players. When the game begins, each player chooses to take questions from one of three bands according to their age and ability.

Players take cards in turn. Each card shows a mathematical question, whose answer is a number or set of numbers between 1 and 100.

The player answers the question by putting a counter on the appropriate number. The winner is the first player to get three counters in a row.

The Trilemma CD-ROM is a bargain at the following prices (ex.VAT):

extended site licence	- £240
unlimited user site licence	- £120
90-119 user licence	- £100
60-89 user licence	- £80
30-59 user licence	- £60
2-29 user licence	- £40
single user licence	- £20

Additional disks are available for home use by pupils at schools with multiple user licences for £5.88 (inc.VAT) each. Please note that we can only process orders for these disks if they are placed by the school for batches of at least 10.

(Extended licences include home use by teachers and pupils.)
